PAINESVILLE, OHIO

PRICE LIST FRUIT AND ORNAMENTAL TREES, SPRING 1916

SMALL FRUITS, ROSES, PERENNIALS, Etc.

All stock offered herein is delivered at Freight or Express Office here—customers paying charges.

Stock. We do not specialize on any one line of **Fruit Trees**—unless it be Peaches and Pears, but aim to grow and offer as complete an assortment in practical, profitable, tried-and-true varieties of all kinds of fruit trees and small fruits, as can be found anywhere in the country. We devote several hundred acres to their propagation, and count them in millions. **Ornamental Trees, Shrubs, Roses and Hardy Perennial Plants** occupy many acres of land, and are probably the most important part of our business. Deciduous Trees of all desirable kinds are grown in immense blocks and can be furnished usually in large quantities.

CERTIFICATE OF INSPECTION, issued annually by the Ohio Dept. of Agriculture, showing freedom of our stock from San Jose Scale and other injurious insects and disease, will be attached to every shipment.

Terms. Net cash with order. No discounts allowed. 5 at 10 rates, 25 at 100 rates, but if remittance amounts to \$25 and up, everything at lowest rate quoted, except at 1000 rates orders must be for 250 or more.

REMEMBER THAT WE EMPLOY NO AGENTS, and are responsible only for orders sent to us through the mail or delivered in person.

QUOTATIONS. We will be pleased to quote prices to anyone desiring different sizes or stock in larger quantities than offered herein. In sending list, state definitely the number of each variety and size wanted.

Filling Orders. We are in position to fill orders for stock in this department as soon as this catalogue reaches you. If your order is accompanied by at least 25 per cent of full amount we will at once assemble the fruit or other trees then in storage, and "set aside" under your name until the date set or weather conditions permit, for shipping.

SUBSTITUTION. We reserve the right, in case we are out of a variety, to substitute another of equal merit when it can be done (always labeling with correct name)—unless the party ordering says "No Substituting;" in which case we will fill order as completely as we can and refund balance of remittance

Shipments. We have the largest frost-proof storage cellars in the business, which every winter harbor an immense amount of perfectly kept stock. We can load under their cover and on our private switch, car-load shipments at any time without danger of injury to stock. But less-car-load shipments must naturally wait the breaking up of severe winter. No nursery provides better materials or greater care in packing than ours. Just as early as we can safely let them go, early delivery orders are rushed out; and we work hundreds of men day and night to avoid unnecessary delay for our customers. **BY FREIGHT OR EXPRESS.** Every article is priced for delivery by Freight or Express, packed free, but customer to pay transportation charges. All heavy trees in large amounts should be sent by freight if time is not too urgent, as the carrying charge is much less; and our perfect packing admits a long journey without injury to the trees. For shipments of medium weight, would suggest express delivery; thus avoiding by quick delivery, the suspense attending the slower freight. However you want it sent, always give full and explicit shipping directions.

Our Guarantee. All goods are guaranteed to reach you in good condition; mistakes, if made will be promptly rectified; examine and count on receipt and notify us at once should there be any errors or damaged stock. This guarantee not good unless above requirements are complied with. Remember a tree, shrub or plant is a living organism, as much as a cow, horse or man. It breathes, drinks and feeds and is liable to attacks of disease and insects. At prices, we sell, it is impossible for us to guarantee growth or to be responsible, for stock after delivery to our customers in good condition.
